When you forward personal information including your name, e-mail address, mailing address and credit card details to us, we will protect such information from unauthorised access and use.

Roan Antelope Enterprises may send e-mail messages to subscribers with "News" and "Special Offers" and users may, by return mail, indicate whether they would prefer not to receive any such mail in future.

Special Notice

There have been renewed instances of people justifying the copying and distributing John's music illegally. Roan Antelope Music is a small family business that is funded mainly through the hard work of presenting concerts and live shows around South Africa and in those countries where there are large concentrations of former Rhodes. We also do a number of charity gigs each year. We are not a large recording house like SONY, EMI or BMG. The costs associated with producing a typical 14 track CD run in excess of R50 000 (US \$ 10 000).

In addition to that, CD factories require a minimum pressing of between 300 and 500 copies of a CD. Roan Antelope Music has to cover all these costs and carry all the risks. In addition, We package and post our product via insured, registered airmail to the highest industry standards. This adds significantly to the final cost of a product delivered overseas. These are these sole reason why CDs bought outside of South Africa seem to be "expensive". Please note that every CD that is illegally copied undermines Roan Antelope Music. We are not in the business to exploit people, we are fully committed to bringing the public John's music at a price that is affordable.
